

WATTSMART® NEW CONSTRUCTION Hotels

WATTSMART®

ROCKY MOUNTAIN
POWER
POWERING YOUR GREATNESS

BUILD SMARTER. EARN INCENTIVES. LOWER ENERGY COSTS.

About Wattsmart®

The Wattsmart New Construction & Major Renovations program helps hotel construction projects earn financial incentives for incorporating energy-efficient building systems and design strategies. This can help lower long-term operating costs, improve building performance and ensure occupant comfort.

AT A GLANCE — AVERAGE SAVINGS & INCENTIVE

Annual Energy Savings:	220,000 kWh
Annual Energy Cost Savings:	\$10,287
Wattsmart Incentive:	\$30,800

Energy-saving improvement recommendations

- ✓ ENERGY STAR® appliances
- ✓ High-performance windows
- ✓ Energy-efficient lighting systems
- ✓ High-efficiency HVAC systems and equipment

Maximize your incentive

The earlier your project team engages with the program, the greater the opportunity to identify energy-saving measures and earn available incentives.

Program participation can begin as early as schematic design and up to 6 months after receiving a Certificate of Occupancy.

Real customer feedback

What did you enjoy most about your experience with the program?

“Receiving incentives for new construction projects. It's always great to roll out and complete new projects and having these programs offset our upfront costs.”

- Justin Kimball, President at Kimball Investment Co.
